### COLLABORATION

Being able to collaborate with more people in more ways.

### PRODUCTIVITY

Increased productivity, both working closely with colleagues or in your own virtual office.

### INTEGRATIONS

Meet anyone, anywhere, in VR or on video with Zoom and Workrooms.

Meta for Work

# Add-ons

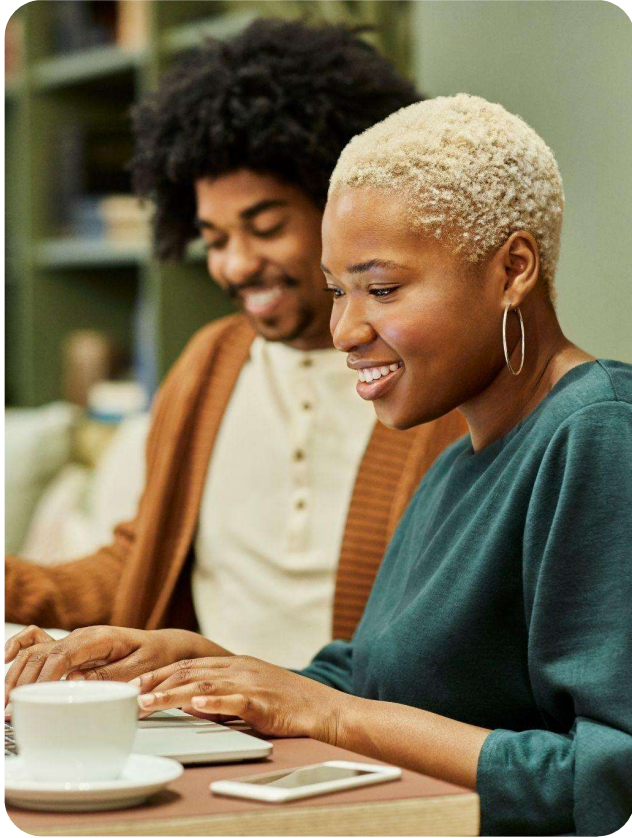

A woman with dark hair in braids, wearing glasses and a yellow top, is sitting at a desk and smiling while looking at a laptop. She has her hands clasped near her chin. The background is a bright, modern office space with large windows and a decorative wall.

## **Shared Mode** means more people across organizations can experience the power of mixed reality.

**Shared Mode is built by Meta to make your customer's Meta Quest devices work for groups of people in their organization.**

With Shared Mode, your customer's Meta Quest is configured so one device can be shared across multiple people, and gives them the ability to lock the app experiences that are accessible in the Shared Mode headset.

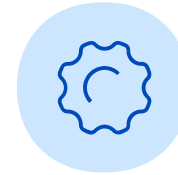

## And it all starts with IT admins.

Shared Mode is a configuration that can be bulk provisioned just like every other device configuration in Quest Device Manager.

Shared Mode can be configured to one or many Device Groups with individualized Shared Mode settings, including assigning specific apps.

Simplify and accelerate the enrollment process for Shared Mode devices using device bulk provisioning at time of purchase.

# Your customer can upgrade to **Support Plus** for dedicated Meta Quest for Business help, anytime they need it.

## Multi-channel support

Meta makes it easy for admins to get help with any hardware and/or software issues. Speak to Meta's support team via chat for critical issues for a personalised response, or via tickets in-product for less urgent enquiries.

## Faster support, available 24/7

Meta's 24/7 support team will respond to the most urgent Meta Quest and Meta Quest for Business-related live chat issues within minutes, and other non-urgent ticket enquiries within 4 hours, leaving your customer to focus on your day-to-day tasks.
